

UNI_ONE SYSTEM WARRANTY CERTIFICATE

Validity

This warranty certificate is valid for 10 years, from the date on the transport documents of the products to which it applies.

Scope of application

This warranty certificate applies to:

- veneered glued laminated timber profiles, related to the window system called "uni_one"; the warranty refers to the absence of veneer film detachments from wooden profiles, determined by the intended and reasonably foreseeable use of products made with the same profiles;
- products manufactured with painted aluminium profiles, relating to the door and windows systems in the catalogue; the warranty refers to the absence of the appearance of corrosion of the coating due to exposure of the products to atmospheric conditions, determined by the intended and reasonably foreseeable use of products made with the same profiles;
- metal and plastic accessories in the uni_one technical catalogues; the warranty refers to the absence of mechanical breakage of the accessories due to exposure of the products to normal stress conditions, determined by the intended and reasonably foreseeable use of products with the same accessories;
- seals relating to the door and windows systems in the catalogue; the warranty refers to the absence of wear and tear effects of the seals due to exposure of the products to normal atmospheric and stress conditions, determined by the intended and reasonably foreseeable use of products with the same seals.

“Foreseeable or reasonably foreseeable use” shall mean the normal operating conditions of doors and windows, subject to atmospheric events other than extraordinary events or natural disasters, in assembly and installation carried out in a workmanlike manner in compliance with the instructions provided in the uni_one technical manuals prepared by Uniform SpA.

Operational aspects

The guarantee offered covers defects specified solely in the field of application. The guarantee establishes that the customer be sent, at the expense of Uniform SpA, the semi-finished product replacing the damaged one and a refund of € 100.00 (one hundred/00) per window, all-inclusive of any expense for subsequent transport, installation, labour c/o the end user.

Exclusions

This warranty certificate shall become invalid as a result of any tampering or damage to the integrity of the products due to repairs, inadequate use and violent actions (break-in attempts, etc.). The absence of ordinary maintenance and cleaning of the products shall also render the warranty invalid (see uni_one Use and Maintenance Manual). With specific reference to plastic accessories and to the seals, damage caused by chemicals (cleaning products, paints, etc.) not contemplated in the uni_one Use and Maintenance manual is excluded from the warranty.

All installations made at a distance of less than 500 m from the coast and/or in an environment with high UV exposure (above 2000 m a.s.l. or in regions where the solar radiation exceeds the recorded values in Europe) and/or C4 High corrosivity category EN ISO 12944 are excluded from the validity of this warranty certificate. In these circumstances, a possible ten-year guarantee of the products may be made available upon verification by Uniform SpA of the place of installation and the technical choices made.

The effects deriving from humidity generated by construction and related activities, such as plastering, painting, drying of castings, etc., or the presence of industrial activities, such as electro plating, chemicals, etc. Defects deriving from deposits, contacts, splashes, presence of building materials or chemical substances, such as cement, mortar, gypsum, lime, etc. are excluded.

Any use not contemplated by the Uniform SpA uni_one technical manuals or the uses with products not supplied by Uniform SpA (for example the use of clips for fixing panels in materials other than aluminium or with methods not foreseen in the catalogue, or the external use of products for internal use, etc.) is excluded from the warranty. Uniform SpA cannot be held liable for damage generated in such circumstances. Furthermore, all defects that are not specifically listed in the "Scope of application" paragraph, such as loss of shine and/or change of colour, are excluded.
